If you feel ill, your body may be ill.

Your soul can fall ill, too.

Do you feel tired and sad all the time?

Is your head full of problems?

Can't you sleep?

Have you often got a headache or a stomach-ache?

Then your soul might be ill.

We listen and talk to you.

We have interpreters.

We speak with you.

Here you learn what you can do.

So you feel better.

So you can have a good life.

So you can do things on your own.

Without help.

We also give you addresses of other counselling centres.
